Practical use of Direct Oral Anticoagulants (DOACs) in Atrial Fibrillation in General Practice: Quick Reference Guide

Author: Gallagher, J.; Brady, C.; ICGP Quality and Safety in Practice Committee

Publication Year: 2020

Download

- Practical use of Direct Oral Anticoagulants (DOACs) in atrial fibrillation in general practice (547k)

Contents

Practical use of Direct Oral Anticoagulants (DOACs) in atrial fibrillation in general practice
Practical start up and follow up for patients on DOACs
Dosing of DOAC in atrial fibrillation
Drug interactions
What to check at follow up
Switching regimens
Dosing errors
Forgotten dose
Double dose
Patient unsure if a dose taken
Undergoing planned surgical interventions
Use of antiplatelet drugs with DOACs
Management of bleeding
Reversal agents
References

Description

This guide serves as a quick reference on the use of Direct Oral Anticoagulants (DOACs) in atrial fibrillation. It is a summary of the 2018 European Heart

Rhythm Association Practical Guide on the use of non-vitamin K antagonist oral anticoagulants in patients with atrial fibrillation.
See DOAC Sample Audit & DOAC Case Discussion
