EGPRN Research Strategy 2021

Changes observed regarding research topics 2010-2019

Changes observed regarding research methodologies 2010-2019

The EGPRN Research Strategy – theory and practice

The Way Forward in Summary

Acknowledgements

Description

The EGPRN Executive Board considered that ten years on from its Research Agenda, it was time to review developments and consider the current landscape. The authors are the members of the EGPRN Council who volunteered to undertake this work.

In this document, we present an updated Research Agenda to be used to develop a strategic research plan for future research in general practice/family medicine (GP/FM).
