Foreword

Executive Summary

1. Introduction

2. Survey Findings

3. Discussion

4. Conclusions and Future Outlook

5. References

## Description

A new report into non-adherence to medicines has been published mediby Pfizer Healthcare Ireland in association with the Irish Pharmacy Union (IPU) and the Irish Patients' Association (IPA). The report, titled 'A Report on Patient Non-Adherence in Ireland' reviews existing international literature on medication adherence and outlines results from an Irish survey examining adherence in Ireland and the factors which hinder it and promote it.
