Contents

INTRODUCTION

CHAPTER 1: The Steering Committee

Standard: There will be a fully representative functioning steering committee capable of addressing the needs of all stakeholders.

CHAPTER 2: Administration of a Training Scheme

Standard: The administration systems will demonstrate the continuous management of all the essential areas of the scheme.

CHAPTER 3: The Programme Directing Team

Standard: The Programme Directing Team will coordinate the organisation, delivery, assessment and development of training.

CHAPTER 4: The Hospital Component

Standard: The hospital-based GP trainee will experience appropriate curriculum-based learning in quality-assured and regulated posts.

CHAPTER 5: The Training Practice Component

Standard: The GP registrar will experience comprehensive general practice exposure in a quality-assured regulated working environment led by a competent GP trainer who will provide teaching, appropriate clinical supervision and mentoring.

CHAPTER 6: The Educational Component

Standard: The educational component will provide a four-year trainee-centered integrated programme delivered in a small group learning environment.

CHAPTER 7: Submission for approval of further General Practice Training Places

Standard: Expansion of general practice training will occur in a regulated quality-

assured manner.

CHAPTER 8: Guidelines for Recruitment & Selection

Standard: Recruitment of trainees, trainers, programme directors and assistant programme directors will be in line with ICGP policy.

CHAPTER 9: Satisfactory Completion of Specialist Training in General Practice

Standard: All elements of general practice training will be documented and certified for the purposes of notification of completion of training to the ICGP.
