Contents

Practical use of Direct Oral Anticoagulants (DOACs) in atrial fibrillation in general practice

Practical start up and follow up for patients on DOACs

Dosing of DOAC in atrial fibrillation

Drug interactions

What to check at follow up

Switching regimens

Dosing errors

Forgotten dose

Double dose

Patient unsure if a dose taken

Undergoing planned surgical interventions

Use of antiplatelet drugs with DOACs

Management of bleeding

Reversal agents

References

Description

This guide serves as a quick reference on the use of Direct Oral Anticoagulants (DOACs) in atrial fibrillation. It is a summary of the 2018 European Heart

Rhythm Association Practical Guide on the use of non-vitamin K antagonist oral anticoagulants in patients with atrial fibrillation.
See DOAC Sample Audit & DOAC Case Discussion
