 99 Family Therapy Skills for Medical Practitioners Radkin Honzák  
 100 What We Do Richard G Roberts  
 Epilogue as Prologue Michael Kidd, Job Metsemakers  
 Acknowledgements  
 20 Years of WONCA Europe - Some History

## **Description**

On the occasion of the 20th Anniversary of WONCA Europe, WONCA Europe's Executive Board presents a gift to all general practitioners and family physicians all over the world: The World Book of Family Medicine!

The ‘World Book’ is a series of short stories, reflecting the best of what has been presented at WONCA conferences over the last 20 years, but also with views for the future – updated!

The ‘World Book’ has several inspirational aspects. First the topics were chosen from about 20,000 abstracts, After selecting a short list of 275 titles best representing the daily work of a family doctor, from abstracts from conferences of

the last 20 years, a panel from WONCA World Executive and WONCA Europe Executive chose the best 100. The authors had to prepare a contribution in 1000 words or less, with five or less take home messages and eight or less references.
