

## Global Health Proforma

Thank you for completing this brief pro forma which seeks to provide a standardised outline of any project work you have undertaken in relation to Global Health. The purpose of this form is to capture relevant experience, links to relevant agencies, funders, knowledge resources, making these available to the ICGP SIG Global Health, and to individuals who are themselves planning a project and who could benefit from your valuable experience.

Name:

Background:

Contact Information:

(If you would prefer to keep your contact information private, please indicate accordingly)

I am happy for my contact information to be linked with this project on [www.icgp.ie](http://www.icgp.ie) [  ]

I do not want my contact information to be linked with this project on [www.icgp.ie](http://www.icgp.ie) [  ]

Simple description of project: (e.g. Country/nature of project /who else was involved /when did it start and has it finished)

When and how did you begin to become interested in this project?

Did you engage with any agencies in Ireland/EU?

Yes [  ] No [  ]

If so, please identify, describe the nature and outcome of any interaction, and a comment/appraisal on the value of the interaction:

Did you engage with any agencies locally (i.e. locally or in the Project Country)?

Yes [  ] No [  ]

If so, please identify, describe the nature and outcome of any interaction, and a comment/appraisal on the value of the interaction:

Please comment on the value to you of your involvement with this project:

Please comment on the value of this project to citizens locally:

If you were planning this again, would you do anything differently?

Are you planning any further activity in this area of care? If so, please briefly describe with a putative timeline:

Thanks for sharing your valuable experience, which is greatly appreciated. Given the reflective nature of completing and sharing this standardised report, you may consider it appropriate for **1 Internal CME point**.

If you believe that you or any of your practice team members may be interested in engaging with this work in the future, please communicate your interest by e mail. We will then include you on mailings on the group's activity, forthcoming meetings and planned project work.

You may wish to support the activities of the SIG by fieldwork abroad. Your input in many other areas would also be appreciated, including planning, development of research and educational materials, communications and fundraising.

Please include my name on ICGP SIG Global Health Mailings.
