How to Record a Procedure Carried Out Using CompleteGP

Open a new consultation and Select the Procedure Icon Δ or press the 'D' key.

Procedures should be coded using either ICPC-2 or ICD-10. If a procedure is not available in either of these coding tables a local can be created.

Diagnosis / Probable Diagnosis Entry			
Δ	Diagnosis / Procedure		
			Local Code
	<u>C</u> onfidence:	<u>S</u> ide:	•
.	S <u>t</u> anding:	•	
Notes:			
	<u>S</u> ave		Cancel

Click the appropriate coding system (most General Practice Procedures are ICPC-2).

You can enter a string to search for or you can use the category tree to locate the appropriate code.

For example to add the procedure of the Insertion of an IUD, Enter the text IUD in the search box and click Search.

Cancel	Add new Code	ОК

If a code does not exist, a new one can be created by clicking Add new Code.

New Local Code: SU1	JR	
Text of Local Code:	Laceration cleaned and debrided-, wound carefu	lly inspected and sutured
Cancel		ОК

The Local Code must be a maximum of seven characters and can be searched for by looking for the Code value of "LO-xxxxx" (eg. LO-SUTUR).

Clinical Procedure Recording

Phrases can be created which record specific details of procedures and if desired, place a coded entry into the Patient's record.
